The Editorial Board has the right to request from the authors an official expert conclusion that the submitted article has no classified data prohibited for publication.

2. A submitted article should be attached with **the data on the author(s)** (see item 8). If there are several authors, the contact person should be indicated who is responsible for correspondence with the Editorial Board and other authors about revisions and final approval of the proofs.
3. The Editorial Board of the Journal examines the article according to the established reviewing procedure. If authors receive their article for correction after reviewing, it does not mean that the article is approved to be published. The corrected article should be sent to the Editorial Board for the subsequent review and approval.
4. The decision on the article publication or its rejection is communicated to the authors. The Editorial Board may also send the reviews on the submitted articles to the authors. Any discussion upon the rejected articles is not possible.
